designer and developer

WORK EXPERIENCE

Moroch - Front End Developer, Digital Designer

Dallas, TX August 2012 – Current

Began work at Moroch as a designer and was given a trial time in which to learn HTML and CSS to fill the front end developer role. Afterwards, my responsibilities have included: website design and development; information architecture; Flash banner design and development; email template design and development; designing, creating, and managing Facebook Page contests through Shoutlet; and designing various elements for presentations, new business pitches, and print projects.

OU Alumni Association - Graphic Designer

Norman, OK June 2011 – May 2012

Various print work such as: invitations, brochures, flyers, newsletters, postcards, and informational booklets; email template design and development, and updating the OU Alumni website with new content daily.

OU Center for the Creation of Economic Wealth - Intern, Co-Inventor and Graphic Designer of Crowdstory

Norman, OK 2010 – 2011

Experience working with a multidisciplinary team, including inventing and producing an iPhone application with developers; Branded the application and pitched multiple presentations to an advising board; Final speech and presentation to 100+ people; Traveled to SXSW 2011 to promote application including designing posters, handouts, t-shirts, and business cards.

OU Medical Center IT Department - Intern

Oklahoma City, OK Summers 2006 and 2007

Shadowed an IT technician; Installed operating systems and other programs on new computers, Mac and PC; Provided technical support for malfunctioning system.
